

***keepin' it REAL* Evaluation Form Key**

| Measure | Question Numbers |
|-------------------------------------|-------------------------|
| Personal Anti-Substance Use Norms | 3 |
| Descriptive Norms | 4-5 |
| Parent Injunctive Norms | 6 |
| Friend Injunctive Norms | 7 |
| Refusal Confidence | 8 |
| Substance Use Resistance Skills | 9 |
| Positive Substance Use Expectancies | 10 |
| Decision Making Skills | 11 |

Score each of the items consecutively (e.g., for item 3: 1 = definitely not OK; 2 = Not OK; 3 = OK; 4 = Definitely OK)

For the following, higher scores represent better outcomes: Descriptive Norms, Parent Injunctive Norms, and Substance Use Resistance Skills

For the following, lower scores represent better outcomes: Personal Anti-Substance Use Norms, Friend Injunctive Norms, Refusal Self-efficacy, and Positive Substance Use Expectancies.

For decision making skills higher scores on the first four items (DARE) represent better outcomes, while lower scores on the fifth and sixth items represent better outcomes.
